## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with Mr. Eugene Valet on March 17, 2004.

The application has been amended as follows:

- i. In claim 28 : In line 1 of the claim, please replace "27" with "25".

### ***Reasons for Allowance***

3. The following is an examiner's statement of reasons for allowance:

- a. Claims 1 – 10 and 29 – 33 are allowable over the Prior Art of Record because it fails to teach or suggest a hard copy system comprising a rewritable medium having a bistable electrochromic colorant susceptible to localized electrical fields and an electrode subsystem producing said localized electrical fields associated with data to be printed in combination with the remaining limitations of the claims.
  
- b. Claims 11 - 20 are allowable over the Prior Art of Record because it fails to teach or suggest a hard copy rendering method comprising the step of providing localized electrical fields and portably transporting said fields across a printing medium such that a bistable electrochromic colorant layer of said medium is subjected to said electric fields in combination with the remaining limitations of the claims.
  
- c. Claims 25 – 26, 28 and 34 – 37 are allowable over the Prior Art of Record because it fails to teach or suggest a scanning printer comprising an electrode array fixedly aligned for printing data raster providing localized electrical fields and acting as a plurality of tuned printheads for association with molecular colorant print media having a substrate and at least one layer of electrochromic molecular colorant, said molecules being bichromal and subjectable to bistable switching between color states under influence of said electric field in combination with the remaining limitations of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
